

TOTAL FLUID MANAGEMENT

Expertise in Fluid Management

Since 1918, BOCCARD has become a major player in industrial installation management, always at the cutting edge of performance and innovation.

Through our Total Fluid Management services, we provide you with top quality maintenance at minimum cost. Your installation is safe, your productivity is ensured, and your maintenance budget is under control.

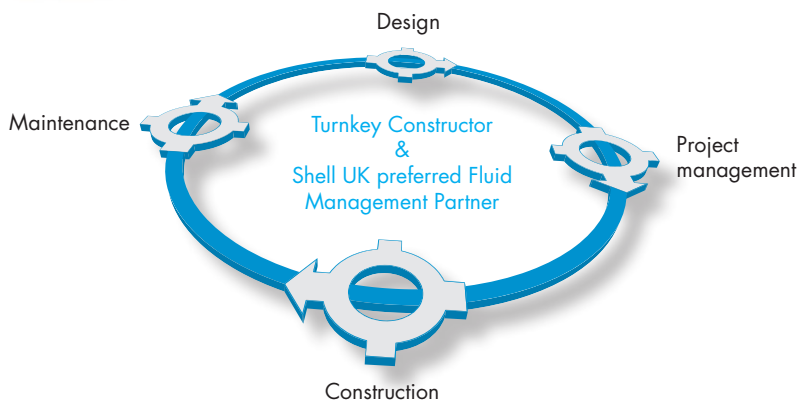

DESIGN, FABRICATION, INSTALLATION & MAINTENANCE

For decades, we have been developing in our capacity for project management in several industries, acquiring new process techniques and knowledge.

We hold a key position in today's industrial marketplace providing extensive experience in design, fabrication, installation and maintenance, which are our core business and remain our undisputed areas of expertise.

Our experience in project coordination enables us to find bespoke solutions and to minimise the overall project costs of installation and maintenance.

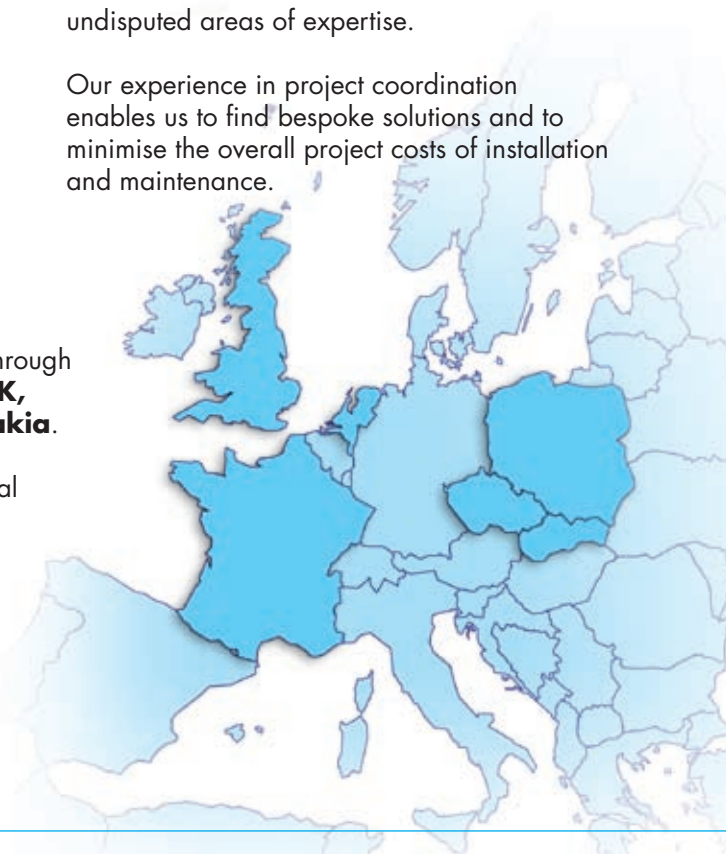

ALLIANCE WITH SHELL FOR IMPROVED SERVICES

Fluid Management has been added to the BOCCARD portfolio through the acquisition of Shell Group's Fluid Management Services in **UK, France, Netherland, Poland, Czech Republic and Slovakia.**

Fluid Management integration reinforces our expertise in industrial and mechanical maintenance.

Moreover, through this alliance, BOCCARD is supplied by Shell with branded lubricating products and technical knowledge to provide you with the best lubrication and maintenance solutions.

BOCCARD Total Fluid Management Cycle

AUDIT

On your request, we can carry out a plant audit to provide you with a detailed report concerning each operation area.

INNOVATION

Always in search of ever more efficient and innovative solutions, our return of experience enables us to improve continuously on Prevention (human & environmental safety), Quality (meeting contract obligations & regulations) and Productivity (respecting budget and time-lines).

MANAGEMENT

Thanks to a continuous management of your project and regular reviews on the way your contract is run, we offer you Value Added Service Options.

REVIEW

The final review meeting enables you to discuss your points of view with BOCCARD about the project and set-up a regular meeting schedule between BOCCARD and key members of your team.

INDUSTRIES

Customised Solutions Optimised Maintenance

TOTAL FLUID MANAGEMENT BEST PRACTICES

Our goal is to minimise production losses risks and maximise your competitiveness on the marketplace.

This is why BOCCARD TFM is committed to find the best solutions to optimise your installation and to avoid production downtime.

TFM makes sure the right oil is at the right place, at the right time. You can rely on our services and concentrate on your core business knowing your machines are being managed properly for lubrication.

DEDICATED TEAM

Our team of mobile maintenance technicians are able to respond in the best lead-times to assist you with any question you may have concerning your equipment maintenance.

TOTAL COST REDUCTION

Our alliance with Shell as their UK preferred TFM supplier enables us to offer you premium quality products at competitive prices.

Combining both BOCCARD's and Shell's expertise, we offer the best maintenance services to reduce costs and maximise energy savings.

PROVEN PERFORMANCE

Through every step of your project, strict standards and internal procedures will ensure the professional management of your project, ensuring that it is delivered on time and on budget.
