## COMPREHENSIVE TRACEABILITY AT A GLANCE

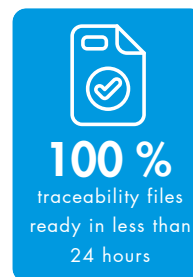

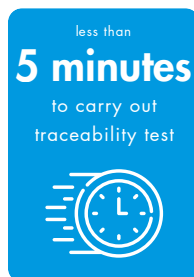

When multiple recipes, ingredients and equipments are present, the **risks of cross-contamination and allergens may not always stem from a clear mistake, but rather from a hidden connection in the chain of production.**

Track Advance Genealogy **monitors raw materials, batches and production orders, documents all production steps and highlights important connections through a family tree representation.** The solution that bolsters the security of your production and confidence in quality.

## RETRACE, PROVE, REACT

- ✓ Recording of production processes including durations and equipments used
- ✓ Interactive family tree to illustrate your entire production cycle
- ✓ Advanced search and quick access by work order, batch, ingredients or raw material
- ✓ Activation of cross-contamination or allergen notifications

## FIND THE SOURCE AND MINIMISE IMPACT

- ✓ Minimise information retrieval time during audits or emergencies
- ✓ Quickly track the source and endpoint of batches with end-to-end traceability
- ✓ Access comprehensive evidence by work order, step-by-step: process parameters, equipments, durations
- ✓ Detect cross-contamination and allergen hazards and initiate prompt notifications
